Articles and abstracts index

Tunisian southern patrimony to restore correctly and develop durably, vector of local development Hanane Abichou, Anne-Marie Jouve, Mongi Sghaier P. 1	Definition of microclimatic parameters based on water transfer and porous media properties to conserve prehistoric constructions: Cueva Pintada at Galdar, Gran Canaria, Spain D. Benavente, J. C. Cañaveras, S. Sánchez-Moral P. 53
Study of spontaneous water imbibition into the limestone rocks H. Adib-Ramezani, K. Beck, T.T. Van, M. Al-Mukhtar P. 11	Weathering processes affecting rock paintings in Villar del Humo Archaeological Park (Cuenca, central Spain) D. Benavente, J.C. Cañaveras, S. Sánchez-Moral, A. Diez-Herrero, I. Gutiérrez-Pérez, J. Alonso-Azcárate, J. Lario P. 55
Thermal waters, salt damage and monument stone decay L. Aires-Barros, A. Dionísio & M.J. Basto P. 14	The impact of thermal and hydric expansion on the decay of porous building stones D. Benavente, G. Cultrone, A. Rodríguez-Guerrero, M. Gómez-Heras P. 58
Monitoring microbial community development on restored mural paintings E. Akatova, V. Jurado, L. Laiz, J. M. Gonzalez and C. Saiz-Jimenez P.16	A survey on the deterioration processes of the Renaissance monument to Giovanni Calfurnio in the St. Anthony's Basilica in Padova, Italy Simone Benchiarin, Lucia Baccelle Scudeler, Vasco Fassina, Gianmario Molin & Cristina Stefani P. 61
The Idol's Fountain (Braga, SW Portugal). A water/rock monument C.A.S. Alves, F.S Lemos, P. Silva, J. Pamplona., A. Lima, L. Aires-Barros, & M.A. Sequeira Braga P. 22	"Salus per aquam". Architecture and technic make an healthy union with water in thermal and hydrotherapeutic baths, collective hygienical establishments, specialistic sanitary house-building Tiziana Campisi P. 71
Pore network modification by salt crystallization of experimentally weathered sedimentary stones M. Angeli, D.Benavente, R. Hébert, J.-P. Bigas, B. Menéndez C. David P. 31	Weathering Processes in the Court of "El Salvador" Church of Baeza (Province of Jaén, Andalusia, Spain) M.J. Campos, M.J. De la Torre P. 79
Physical and mineralogical analysis of bioremediated limestones Séverine Anne, Olivier Rozenbaum, Jean-Louis Rouet, Alain Plançon P. 33	Improvements in the decayed microstructure of marble by treatments with nano dispersive solutions E.N. Caner-Saltık, G.Orial, J.Mertz, Ş.Demirci, P.Hugon, K.G.Akoğlu and E .Caner P. 90
Stones of monuments in biocalcarenites and travertines : morphology and types of deterioration. J.Barrios Neira, L. Montealegre, E.Sebastian, G. Cultrone, K. Beck, M .Al-Mukhtar y J.F.Alcover P. 35	Study of heat- and light-induced desorption of hydrated sulfates by powder X-ray thermodiffraction Carolina Cardell-Fernández, Antonio Sánchez-Navas and J. Daniel Martín-Ramos P. 93
Applying near infrared reflectance spectroscopy (NIRS) to cultural heritage J. Barrios Neira, L. Montealegre, A. Ortega, J. E. Meroño y M.J. Aguilera P. 44	Problématique de la conservation d'un patrimoine fluvial archéologique, ethnologique, architectural, dans son contexte naturel en Basse Loire angevine et armoricaine Philippe Cayla P. 95
Effect of protective surface treatments on the hydraulic properties of porous building stones Kévin Beck, Marie-Alix Parant, Patrick Baillif, Barbara Brunel-Imbault, Fabrice Muller, Muzahim Al-Mukhtar, Jean-Louis Rouet P. 50	

The roman amphitheatre of Dürres : Water, from resource to problem Eva Coïsson, Andrea Ghiretti, Federica Ottoni	P. 101	Rainwater collection structures in the Karst region Anna Frangipane	P. 191
Water and soluble salts on porous materials : an experimental study of damages on bricks C. Colombo, C. Conti, F. Costanzi, S. Montonato, R. Negrotti, T. Poli, M. Realini, M. Valentini	P. 110	Water management at Durocortorum (Reims, France), diversity of archaeological structures and promotion of an undervalued cultural heritage Gilles Fronteau, Claire Moreau, Edith Chopin, François Berthelot, Michel Arduhin, Agnès Balmelle, Yoann Rabasté et Philippe Rollet	P. 202
Estimation of water permeability of building brecciated dolostones N. Cueto, D. Benavente, M. A. Garcia del Cura	P. 119	Karst soil and rising damp in Sassari : guide lines for restoration of Canopeleno complex Stefano Gizzi, Daniela Scudino, Stefano Della Torre, Elisabetta Rosina, Massimo Valentini	P. 205
The restoration of the roman bridge of Cordoba (Spain). A petrophysical investigation Giuseppe Cultrone, Eduardo Sebastián, Ana Luque, Maja Urosevic	P. 130	The building complex of the Kaliakra arsenal, Mount Athos Phaidon Hadjiantoniou	P. 214
Performance of selected materials containing different mixtures of salts after water repellent treatment Hilde De Clercq	P. 139	Thermal recording during experimental weathering of limestones: the role of imbibition on salt crystallization and rock decay R. Hébert, M. Angeli, J.-P. Bigas & D. Benavente	P. 222
Effectiveness of silica polymer – colloid composite for consolidating sedimentary stones D. M. DE LOS SANTOS AND M. J. MOSQUERA DíAZ	P. 150	Study of saving and conservation of Oserkon II tomb, Tannis, Egypt Fatma M. Helmi, Atef A. Barania, Mohamed A. Ragab	P. 225
PIERCENTRE, an information system of the stone, quarries and monuments of the Centre Region (France) David Dessandier, Christian Gateau & Jean-Pierre Leprêtre	P. 151	An integrated methodology for the moisture performance assessment of historic buildings M. Karoglou, A. Moropoulou, A. Bakolas, M.K. Krokida, Z.B. Maroulis, D.K. Konstantopoulos, V.Z. Maroulis	P. 226
Rainwater drainage system investigation of an historical hammam by using non destructive methods Gulsen Disli, Ayse Tavukcuoglu, Levent Tosun, Ermanno Grinzato, Emine N. Caner-Saltik	P. 153	Different types of deterioration of the Royal Summerhouse in the Royal Garden of Prague Castle Ivana Kopecká, Jiří Kolísko, Jiří Novotný,	P. 236
Two Sidney forts fighting the tide of decay Jennifer Faddy	P. 166	The preservation of a roman aqueduct in Arcadia from spring water M. Kouli, D. Yfantis, E. Cheilakou, S. Raftopoulou, A. Stratis, F. Zezza	P. 244
The Zaghouan-Carthage aqueducts and their nymphaea (Tunisia) Naïdé Ferchiou	P. 180	Segmentation of X-ray tomographic images : contribution to weathering analysis of buildings limestones originating from historical buildings Emmanuel Le Trong, Olivier Rozenbaum, Jean-Louis Rouet, Ary Bruand	P. 255
Pore structure, fluid transport and natural stone decay : an experimental approach Carlos Figueiredo, Rita Folha, Amélia Dionisio, António Maurício, Carlos Alves, Luís Aires-Barros	P. 181	Free-hand sketching in the contemporary conservation of monuments Anna Lobovikov-Katz	P. 257
The conservation state of Hafsid masonries from medieval reconstruction works at the roman aqueduct of Carthage, Tunisia M. O. Figueiredo, T. Pereira da Silva, J.P. Veiga	P. 190		

The social club of the Manzanera in Calpe, Alicante (Spain - work of Ricardo Bofill). Study of the alteration of its materials. M. Louis Cereceda, Y. Spairani Berrio, M. A. García del Cura, R. Prado Govea, J. A. Huesca Tortosa, S. Spairani Berrio, D. Benavente.	P. 265	
Suitability and Evaluation of Andalusian White Marls as raw materials for a hydraulic lime production in building restoration Theodoros Markopoulos, Emilio Galán, Adolfo Miras	P. 272	
Stone decay in civil heritage constructions due to salt crystallisation: Salinetes bridge (alicante, SE Spain) J. Martínez-Martínez, A. Bernabéu, D. Benavente and M.A. García del Cura	P. 278	
Microbial communities involved in the deterioration of Santa Clara – A – Velha monastery (Coimbra, Portugal) A.Z. Miller, L. Laiz, A. Dionísio, M.F. Macedo, C. Saiz-Jimenez	P. 287	
Evaluation of the durability of water-repellents applied oimestone, after 6-year of ageing in natural environment C. Moreau, V. Vergès-Belmin, L. Leroux, G. Fronteau, V. Barbin.	P. 290	
A novel application of mesoporous molecular sieves : consolidating stonework M.J. Mosquera and D.M. de los Santos	P. 291	
Assessing the deterioration of frescoes using hydrogeochemical and geological data : two examples from Egypt A. Moussa, K. Voudouris, J. Stratis, M. Ali, B. Christaras	P. 300	
Investigating moisture/salt load and damage of salt-resistant plasters : from laboratory specimens to practical test panels Mohamed Nasraoui & Jean-Didier Mertz	P. 310	
Biological mortars – an original concept for heritage conservation Geneviève Orial, Faisl Bousta, Thomas Vieweger & Jean-François Loubière	P. 312	
Water and stability in the castle of Fontanellato Federica Ottoni	P. 315	
Assessing the cleaning methods on the limestones façades in the formerly Workers Hospital of Madrid, Spain E.M. Perez-Monserrat, M.J. Varas, R. Fort & M. Alvarez de Buergo	P. 324	
Origin of yellowing of white marbles : natural and anthropogenic factors Manuel Pozo Rodríguez and María Isabel Carretero	P. 328	
The sinter of the Fontana Pretoria in Palermo G. Rizzo, L. Ercoli & F. D'Agostino	P. 329	
Contribution of 3D X-ray microtomographic image for the characterisation of weathered and unweathered building limestones Olivier Rozenbaum, Emmanuel Le Trong, Jean-Louis Rouet, Ary Bruand	P. 332	
Controlling crystallization pressure by surface modification George W. Scherer, John J. Valenza II, Megan R. McNall	P. 335	
Damage from hygric swelling George W. Scherer, Timothy P. Wangler, Philippa Duffus	P. 336	
On the presence of Acidobacteria in the cave of Doña Trinidad (Malaga, Spain) F. Stomeo, J.M. Gonzalez, C. Saiz-Jimenez	P.337	
Restoration of the inundation sluice of Hedikhuizen in the Netherlands Marc Swolfs, Koenraad Van Balen, Cesare Romeo, Roald Hayen, C. J. M. Kees Tak, B. J. Verhey	P. 344	
Influence of indoor environmental conditions on buiding materials of Algete church (Madrid, Spain) M. Taborda Duarte, M.J. Varas, R. Fort	P. 345	
Recovery of historic memory of the patrimony of the royal site of La Isabella and the Sacedon Baths Antonio Miguel Trallero Sanz, D. Enrique J. Fernández Tapia, Francisco Maza Vázquez, Ana Pilar Sancho Olóriz, David Juan Núñez Pérez, Javier Ruiz Castillo, Andrés Cidoncha Marañoñ.	P. 348
