

HTML5 and CSS3 – HTML Exercises

Exercise 1

Create a web with the following information and structure:

My blog about my life

<h1>

Menu

<h2>

- [Today](#)
- [Yesterday](#)
- [Last week](#)
- [Archives](#)

Meeting with supervisor

<h2>

14 Dec 2011

Today I went to the university by bus.

I had a met with my PhD supervisor.

New car!!!

<h2>

12 Dec 2011

Today I bought my new car. It's a Honda Accord and it's really nice.

I met some friends at a pub.

Visit my parents

<h2>

10 Dec 2011

Tried to contact my PhD supervisor. He was out of his office.

I visited my parents and we had a nice dinner together.

Last posts

<h2>

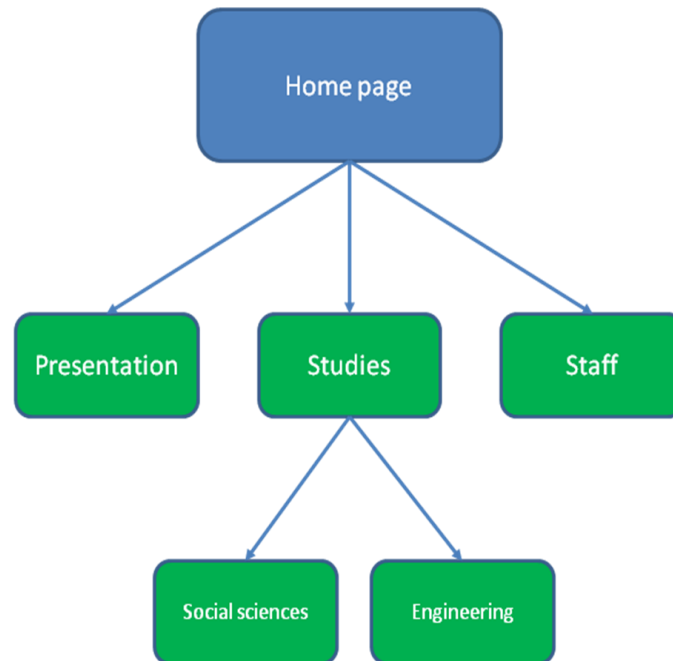

- [Meeting with supervisor](#)
- [New car!!!](#)
- [Visit my parents](#)

Contact me: email@something.com

The rest of elements are paragraphs of text.

Exercise 2

Create a website with the following information and structure:

The content of the home page should be:

- Logo and title of the website
- Navigation bar: links to presentation, studies, and staff
- News
- Announcements
- Footer: contact information and copyright

Exercise 3

Transform the previous two exercises into HTML5. Use the following new tags: <header>, <nav>, <aside>, <article>, <section>, <time>, <footer>.
